Meet the experts
Video transcript

Chiara Baggi: Hi, my name is Chiara. I am a Consultant here at Accenture and I'm part of the Adobe business group based in Milan.

Claudio Capelli: I'm a Business Integration Manager part of Adobe Business group.

Prasun Banerjee: I am part of Adobe Practice at Accenture, where I work as a business integration architecture specialist.

Marine Raoux: I'm Marine Senior Manager within Accenture technology in Paris. And lead Adobe platform for France and Benelux.

Claudio: Every day I do something different, but usually you can find me working close to the client

Marine: First you have you clients to, which you have to bring the best of your one Accenture team.

Prasun: I work with Adobe experience manager. I usually code in Java and react CS.

Chiara: I work with the development team to design the best way to implement the solution.

Marine: Innovation rhymes with collaboration.

Chiara: Innovation starts. So, when you open up to the possibility that the way you're doing something may not be the best way.

Marine: We work on a daily basis as one Accenture teams with the richness of different groups, working together.

Claudio: We also follow agile methodologies, and this gives us the opportunity to be more flexible.

Marine: Because I never get bored.
The Adobe BG is at the very heart of major transformation journeys.

Chiara: I think Accenture, offers a variety of opportunities to work with international clients.

Claudio: And every day is different because you have to face a new challenge.

Prasun: Accenture has a multicultural and diverse environment. Everyone has a positive attitude and happy to share their expertise.

Chiara: Keep yourself curious, updated, and motivated.

Marine: Stay authentic all along the way.

Claudio: Be passionate of our work. Be proactive, responsible, and the being able to adapt change.

Marine: Stay open to new experiences, build your own path.

Prasun: And trying to develop a positive mindset. All about trusting yourself and your ability to succeed.
