

# TECHNOLOGY INTERNSHIP PROGRAM

## VIDEO TRANSCRIPT

**Andreea:** What I liked most about the internship as the passion that I saw in the interns' eyes.

**Eros:** I loved the environment of Accenture.

**Elena:** Starting an internship with Accenture was the best way to start my career.

**Andreea:** I forgot!

**Elena:** Sorry!

**Eros:** Well

**Elena:** Hi!

**Elena:** It's important to choose an internship that will allow you to develop essential skills, like...

**Andreea:** to have fun, to learn in a safe environment

**Eros:** pick the technology you'd like to learn

**Andreea:** Because of its diversity and the multitudes of projects that it has

**Elena:** Because it's truly a dynamic environment

**Eros:** Because I was familiar with the company due to the great collaboration with the students' association, I was in.

**Andreea:** We made a project for a „curier”.

**Andreea:** They are not calling you, they are going to the reception, they leave the package there

**Elena:** It was very interesting, to start the project from 0 with my team

**Elena:** I feel like my opinions were valued

**Andreea:** Automatically, an email will be sent to you, that you have a package. Then, you can go to the reception and take your package

**Elena:** Don't be afraid to ask questions!

**Eros:** Don't do it! Don't do it! Don't start an internship, go to Vama Veche instead. Trust me.

**Eros:** I won't say that again!

**Andreea:** Don't think twice and apply!

**Andreea:** And now seriously, It's a super OK company. I discovered a lot of things I like.
