

LIGHTING THE WAY: THE RISE OF TECH-POWERED, DATA-DRIVEN CHANGE LEADERS

VIDEO TRANSCRIPT

Hi, I'm Samia Tarraf, Accenture Oracle Business Group **Lead for North America**.

ANDREA CESARINI

And I'm Andrea Cesarini, the Oracle Business Group **Lead for Europe**. We're excited to share this year's **Accenture Technology Vision for Oracle**.

During the past year, **technology** has been both a **lifeline** and a **lifeforce**—sustaining us through unprecedented challenges and uncertainty but also powering our ability to innovate the way forward.

SAMIA TARRAF

For us, the Technology Vision is more than just insights – it's about **what we value**. How we are helping industry leaders **innovate responsibly** and build **ethical, sustainable businesses** on a foundation of **trust** with **Oracle Cloud**.

ANDREA CESARINI

Innovation – it's native to Accenture and to Oracle. We bring our deep **industry knowledge** and **technology expertise**. Oracle brings the only cloud application suite running on a **true cloud infrastructure**.

SAMIA TARRAF

With our **clients**, we are lighting the way.

SAMIA & ANDREA.

Together.
