

# ACCENTURE MYWIZARD: REIMAGINE IT

## VIDEO TRANSCRIPT

There's a lot on your mind right now.

You're tasked with staying competitive in the face of rapidly changing business conditions—reimagining ways to drive more value and reinvest in your digital enterprise.

You dream of an IT organization that can innovate, adapt quickly and achieve better outcomes.

With Accenture myWizard, you have a way to accelerate transformation, free up IT spend and propel innovation in a one place, one platform approach.

myWizard is an integrated automation platform with AI at the core that drives speed, quality, agility, predictability and efficiency. We deliver automation across the software engineering lifecycle for applications and infrastructure.

With myWizard, accelerate your automation transformation journey. Start simple with a benchmark of your automation maturity and get a blueprint and roadmap aligned with your business priorities. Seamlessly power up, then scale automation at the enterprise level and sustain through continuous innovation to maximize business outcomes.

With myWizard, bring continuous improvement by driving AI-infused automation in modern engineering practices such as Agile and DevOps throughout IT delivery for higher quality, faster and more predictable releases.

And, evolve to modern operations with real-time alerts, self-healing and AI to bring systems from reactive to proactive and predictive.

Plus, myWizard's plug-and-play architecture seamlessly connects to your technology with an extendible data fabric that adapts and evolves—making your automation resilient and your organization ready for whatever tomorrow may bring.

Reimagine IT with myWizard.
