

NAVIGATE THE CLOUD WITH CONFIDENCE - ACCENTURE MYNAV®

VIDEO TRANSCRIPT

Odds are your organization needs to fast-forward digital transformation with cloud at the core.

The world of cloud is growing more complex. And the pace of change is relentless.

Which may explain why nearly two-thirds of businesses are struggling to fully capture the expected benefits of migrating to the cloud.

Cloud offers flexibility, speed, and innovation, but achieving these benefits can be hard.

How can you get to cloud value... faster?

In a sea of choices, Accenture myNav® helps you find the best way to shape, move and operate your business in the cloud.

With myNav®, you can navigate cloud complexity with confidence.

myNav encapsulates Accenture's experience of over 36,000 cloud engagements to take the guesswork out of your cloud journey.

Its comprehensive capabilities help you:

- Migrate your IT landscape by selecting the right cloud infrastructure for your needs to get to the cloud quickly.
- Accelerate value by restructuring your architecture, applications, and data for the cloud; and implementing cloud-first strategies in your workforce and operating model.
- Grow & Innovate your business by using cloud capabilities to help increase your differentiation and competitiveness.

And drive more value, faster, in the cloud, while improving experiences.

myNav delivers tangible benefits. For instance,

- Save up to 30% through continuous cost optimization
- Realize up to 14% additional carbon emissions savings

And with a comprehensive set of capabilities, myNav provides a one-stop-shop to navigate your journey on the cloud continuum.

Make confident cloud decisions and deliver value from Day 1 with Accenture myNav
