

PUTTING PEOPLE FIRST: BUILDING THE FUTURE SUPPLY CHAIN WORKFORCE

VIDEO TRANSCRIPT

Digital technologies are igniting a new era for businesses and their supply chains.

An era in which humans and machines are fast becoming teammates.

Collaborating to create intelligent supply chains that generate never before possible

business outcomes.

How do companies prepare their supply chain workforce for this fast-approaching

future?

How do companies engage their workforce to ensure digital initiatives and their talent

succeed and thrive?

Supply Chain Workforce of the Future is Accenture's research-based perspective on digitally transforming supply chains and achieving competitive agility by putting people first.

Engage people

Develop new skills

And keep the skills you need

That's the path to supply chain success in the human + machine future

Discover how it's done in this new report
