

# ACCENTURE BEHAVIORAL HEALTH SOLUTION FOR 988

## VIDEO TRANSCRIPT

Introducing Accenture Behavioral Health Solution

An omnichannel platform that offers 24/7 behavioral crisis support and helps states accelerate response to the 988 mandate. With ABHS people can easily access help during a crisis. Just dial 988

To talk, text or chat with mental health professionals

Who connect them to the right resources and systems at the right time

The platform gives 988 crisis line agents access to state data...

About where immediate care is available, including available beds, mobile crisis units and outpatient facilities.

The platform gives 988 agents accurate provider information to help citizens find care

in their moment of need and beyond. The platform also integrates with a state's existing helplines and third-party mental health providers so you can facilitate a longer-term continuum of care.

Each state is developing its own 988 strategy

What you implement now to serve callers in crisis could mean the difference between life and death.

Use ABHS to connect people to mental health services they need when they need them

With one call or text, help is on the way.
