Accelerate data loading with *evolv*® Data Loader

Designed specifically for Oracle Transportation Management (OTM)

Challenges in managing data

- **Consolidating** data sources efficiently
- Maintaining existing data easily
- **Importing** data into OTM in the required format and structure
- **Extracting** and **migrating** data from OTM as needed
- Ensuring the integrity and quality of data by validating and enriching it
- Empowering business users to manage data effectively

ORACLE®

" Transportation Management Systems (TMS) need high-quality master and transactional data to achieve the best value from core functionality and to make use of advanced usage such as network modeling and machine learning.

Dominic Regan,
Senior Director, Oracle Logistics Application in EMA
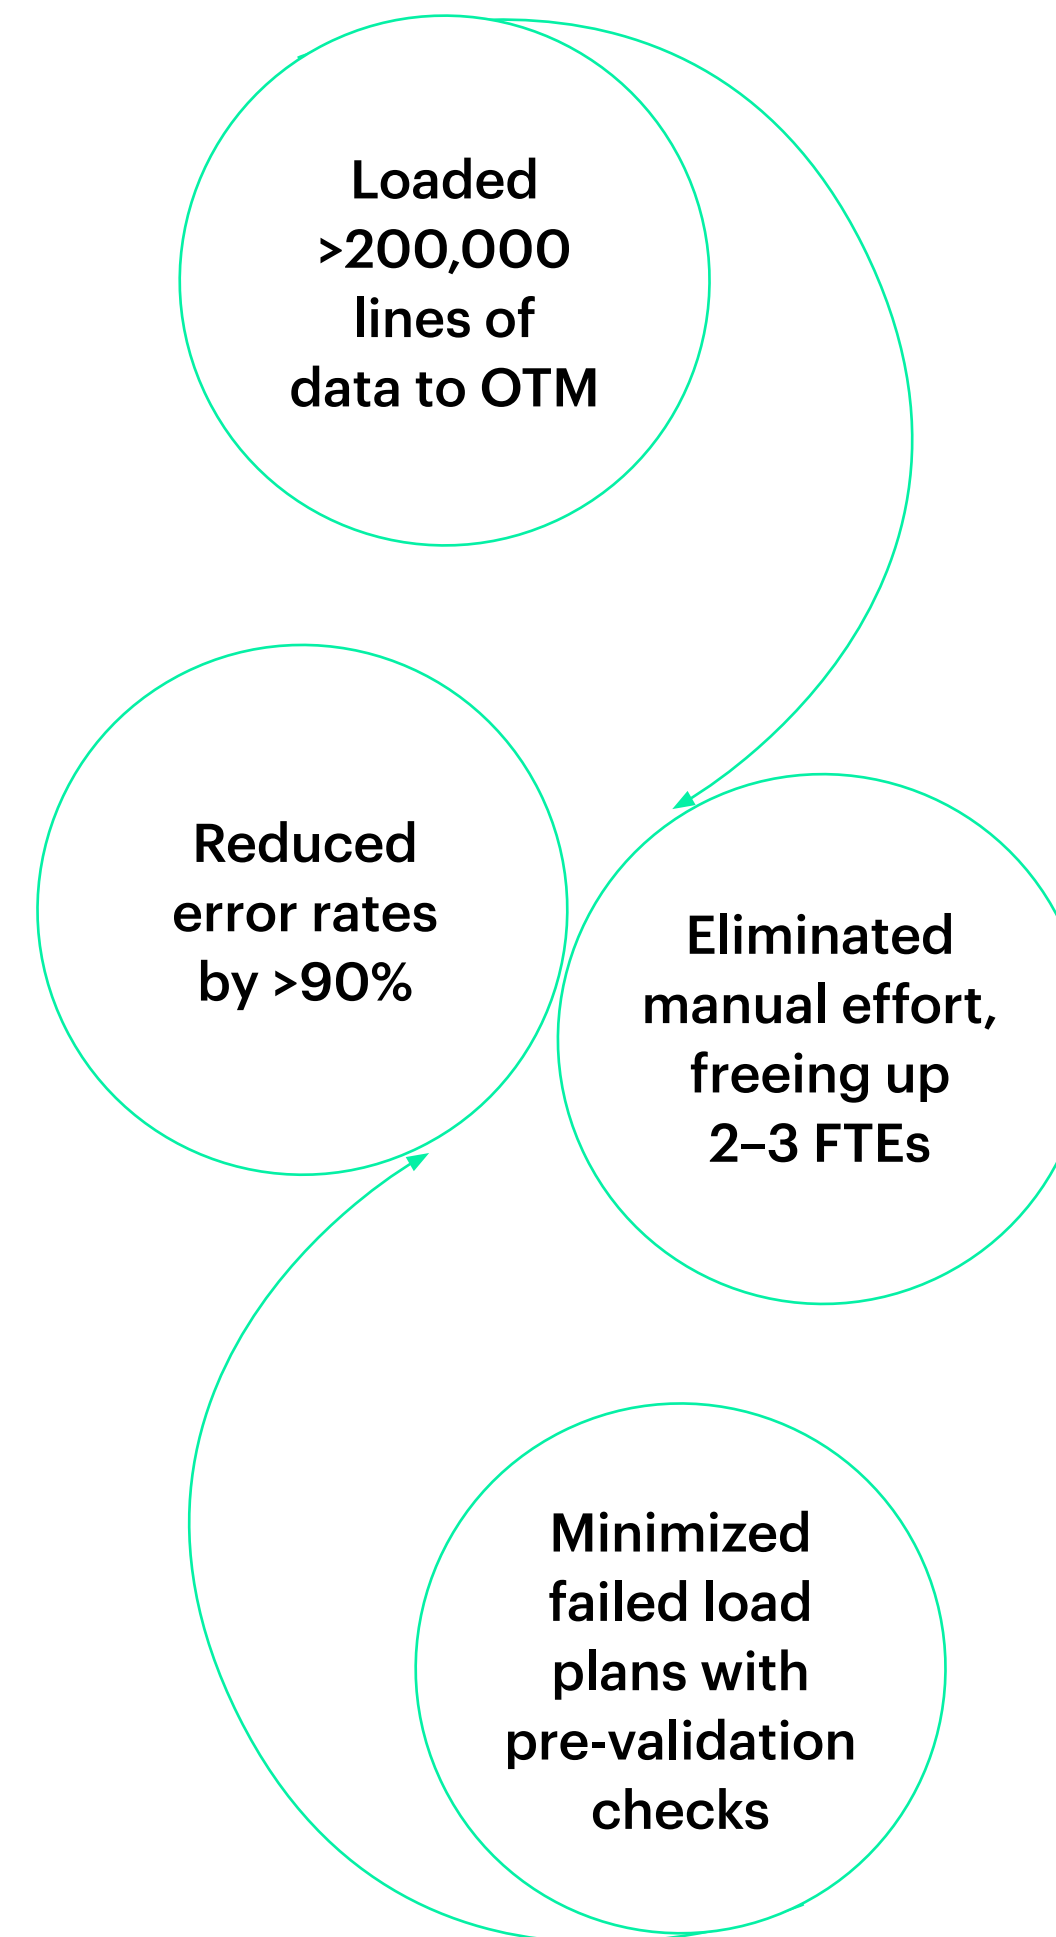

UD TRUCKS

What our clients are saying

Enhancing efficiency and data quality with UD TRUCKS

" evolv is a productivity tool for business users as it provides a great deal of work efficiency, ensures data quality and provides good UX.

**Steenie Norman,
Delivery Manager & Special Projects**

Loaded
>200,000
lines of
data to OTM

Reduced
error rates
by >90%

Eliminated
manual effort,
freeing up
2–3 FTEs

Minimized
failed load
plans with
pre-validation
checks

What our clients are saying

Streamlining data management with MAZDA

> evolv is efficiently intertwined with Oracle Transportation Management to allow users to upload master data at a high speed which results in a quick implementation.

**Lara De Mattia,
Engineer**

- Automated data uploads using pre-defined templates
- Estimated time reduction of 40%
- Reduced overall time spent on data maintenance
- Guaranteed data quality with an automated data validation tool

KUEHNE+NAGEL

What our clients are saying

Efficient rate management with KUEHNE+NAGEL

> *We are able to setup a rate template in evolv and load thousands of rates instantly. This would have taken days without this tool.*

**Ryan Troutman,
Product Lead – OTM Transportation**

Easy rate loading

Enhanced master data management

Significant time savings

Reliable and efficient data management

evolv Data Loader allows business users to load data reliably and efficiently, drawing from our extensive experience with global OTM projects.

Key features
- Easy-to-use and secure with
  - Pre-load data validation
  - Data mapping, transformation and enrichment
  - Seamless OTM integration
  - Automated data loading
- Customizable configuration options for specific use cases
- Scalable to handle datasets of all sizes

Key highlights

Simplifies data management

- Enhances **flexibility**
- Supports **scalability**
- Ensures **connectivity**
- Supports the use of excel files
- Applies business rules
- Automates data flows
- Ensures **data quality** and **integrity**
- Offers customizable error codes
- Provides customizable **application access**
- Implements customizable **validations**
- Customizes transmission flows

Operations at a glance

Manages all master data objects for OTM, including, but not limited to

- Rates
- Locations
- Shipments
- Service providers
- Calendars
- Items
- Schedules
- Regions
- Reference qualifiers
- Itineraries
- Contacts

Handles all transactional data objects for OTM, including

- Orders
- Shipments
- Invoices
- Disputes
- Events

Manages system and process-relevant objects for OTM, including

- Geo hierarchies
- Commitment allocations
- Capacity commitments
- Approval rules
- Process control requests

evolv Data Loader benefits

- Reduce administration
- Increase efficiency
- Automate Data-flows
- Improve quality
- Gain auditability
- Lower costs
