evolv[®] Test Accelerator

Test effectively. Test once. Automate.

Challenges in ensuring test consistency and test accuracy

- Seamless **upgrades** of Oracle Logistics Cloud solutions (on-premises and Cloud)
- Maintaining **business continuity** with comprehensive testing
- Reducing workload by **minimizing manual** testing
- Quickly identifying and addressing **vulnerabilities**

Key highlights of **evolv**® Test Accelerator

- Improved **accuracy**
- **Accelerated** testing
- Simplified scripting
- Efficient test preparation
- **Chaining** of test cases
- **Parallel execution** of test cases
- Dynamic data generation
- Test cases written in **natural language**
- Easy maintenance
- **Scalability**
- Reusable test scripts
- Early defect detection

Core capabilities and features of **evolv** Test Accelerator

evolv Test Accelerator builds on decades of experience implementing, supporting and testing Oracle solutions. It provides stability with comprehensive test coverage and rapid execution leading to faster issue identification and resolution.

SaaS Automation Tool

- Supports Oracle Logistics Cloud, on-premises solutions and evolv applications

Efficient testing

- Executes 3,000 test steps in 60 minutes, freeing up resources

User-friendly interface

- Intuitive design for easy creation, updating, running and reporting of automated tests
- Supports multiple parallel test sessions in background mode for increased efficiency

Reliability and rapid issue detection

- Ensures consistent and reliable test results
- Quickly identifies and reports issues to facilitate faster resolution

Comprehensive reporting

- Streamlines reporting with detailed run reports and interactive dashboards
- Provides clear insights and actionable data for better decision-making

Accessible automation

- Test scripts written in natural language, making automation more accessible and reducing the need for specialist resources

Versatile use cases

- Ideal for regression testing, configuring new features, releasing new code, migrating environments and making system changes

Flexible plans

- Tailored to meet your specific testing requirements
