

THE LENS TEASER

VIDEO TRANSCRIPT

Tom Lehmann 00:00

From digital transformation of biopharma to the reinvention of Life Sciences, it's now time for a new perspective. Just like the life sciences industry, the Driving Digital in Biopharma series has evolved. From leading-edge R&D to scaling the manufacturing of complex therapies to opportunities to better support and engage healthcare providers and patients: welcome to reinventing Life Sciences—welcome to The Lens.

Tom Lehmann 00:24

In each episode, we'll explore the way the industry is being reimagined and reinvented. If you're passionate about the future of medicines and medical technologies, improving patient outcomes and pushing the limits of innovation, The Lens is your essential listen.
